1960

Rogation Day

✓ 144th day - 222 days to come

Then to gas co office; then home and wrote a letter to Wylie commenting on his proposed Reader's Digest article. Not much work done today on the smog speech which is due Wednesday ✓

TUESDAY 24 MAY

1960

Rogation Day
145th day - 221 days to come

at the office this morning.

Today I finished the overhauling of the smog talk for the presentation before the employees of the County Dept of Public Health tomorrow. It required extensive changes.

Dr. Fridlay Russell phoned from Los Angeles this afternoon to discuss the progress of his tiger snake patient. He thinks he will live but may have to use a respirator for a long time or even permanently. We talked over the widespread interest in the case, including phone calls from as far away as Brazil and Australia.

Allan called tonight and brought transcripts of my KW talk on early days in Los Angeles.

1960

WEDNESDAY 25 MAY

Put the finishing touches on the
smog talk.

Delivered the smog talk (extensively
revised) at the monthly staff meeting
of the Department of Public Health,
County of San Diego. About 45 present.
The talk lasted from 3⁵⁵ to 4⁰⁵, and
then about 10 minutes of questions. It
seemed to go OK.

Went to the Zoo directors meeting
at 5⁵⁰; over at 8³⁰. The usual
squabble about the failure to complete
the master plan. I shall have to go easy
on these arguments, as I felt the
pressure considerably.

THURSDAY 26 MAY

1960

Ascension Day

At the office this morning. Chapman Grant came in and we discussed various and sundry problems.

Went over to the library and checked several items.

Got started on the folklore talk for June 5.

At the office this morning.
Finished the first draft of a
poem for Ned Guymon's party!

SATURDAY 28 MAY

1960

~ 149th day - 217 days to come

This morning I worked over the Guzman poem and took it up to Miss Mollay for copying.

I receive the proof of the Encyclopedia Britannica article on Moccasin and was much disappointed. They had substituted Ancistrodon for Agkistrodon; and had made other less important changes. The latter had the effect of introducing inaccuracies. I don't think the changes they made were in any way necessary or improvements. All of this was very disconcerting. Wrote a letter to the EB and took it up to Miss Mollay.

Went to the Miller's for an outdoor barbecued chicken dinner. It was very good, although the weather was on the cool side.

1960

SUNDAY 29 MAY

1960

TUESDAY 31 MAY

✓ 152nd day - 214 days to come

At the office this morning.

the folklore speech. Now it needs only
rereading and some rewriting for
smoothness and continuity.

Discussed personnel problems at
length this morning with His Dillin.

Went to a cocktail party for the
Boegles at Ruth Budron's tonight.

Had a phone conversation with Dr.
Finclay Russell. He wants some hellerei
venom that I can't furnish. Talked to
Chuck Shaw about the possibility of his
getting some. Slim chance. Asked Russell
to send a list of folklore cures suggested
for the tiger snake case that he had
received by mail.

1960

WEDNESDAY 1 JUNE

FRIDAY 3 JUNE

Confederate Memorial Day (Tenn., Ky.)

♥ 155th day - 211 days to come

at the office this morning
Finished the first corrected
draft of the folklore speech, although
further retouching will be desirable.

The "Tribune" called this noon
wanted a copy of my Sunday talk.
I told them I had no copy, but they
were at liberty to see the original. So they
sent out a reporter Tim Montgomery
who read it and took notes for Monday's
Trib. He said he enjoyed it.

Party for 9 at home to night; The Mosses,
Adam's, Constance Withington, Lett, & Molly
Baker. Showed them specimens and books.

SATURDAY 4 JUNE

1960

156th day - 210 days to come

Stanley Williams worked today. Finished pickling all the live material.

I didn't do much today except further retouching of tomorrow's speech.

At 6³⁰ was picked up by Dr. George Fishburn and taken to the El Cortez Hotel where there was a cocktail party given by Gerald Egelston, manager of Educational Services for the Federle Valovatomis -- in other words the man in charge of tomorrow's symposium. There were also the symposium speakers and their wives, as well as the local committee members and their wives. The food was good.

I asked Egelston how much time I would have tomorrow and he said 20 minutes. This was shocking to me as Fishburn and Feeney had originally mentioned 45 minutes +, and my hard work on the talk was based on that allowance. And I will be lucky if I get the 20 minutes as they have 1 1/2 hrs in which to feed an estimated 600 people, have the introduction of a lot of VIPs, and then my talk. It is useless to describe all the arguments I tried on Egelston, the net result is that I got nowhere.

SUNDAY 5 JUNE

1960

Whitsunday
▼ 157th day - 209 days to come

Got up this morning at 3³⁰ and went after the folklore talk to cut it to the limit. By working over every part and eliminating, especially, the sections on Indian folklore, and the uses of snake parts and venom in the cure of disease, I was able to cut it down to 57% of its former length.

Went to the luncheon and made the talk. I think it went quite well. It took exactly 24 minutes just about what Egelston said he would allow. There were about 600 present almost all doctors and their wives. It was a fine steak lunch but from experience I had learned not to stuff before making a speech, so much to my regret I left most of the steak. Otherwise there was nothing to be sorry for. Phil and Janet were there but not the Millses.

Larry came around this afternoon to get the algebra problem I had worked out for him.

Among the many doctors I met was a Dr. Gregg, a ~~cousin~~ nephew of the Dr. R. J. Gregg who was our family doctor some 60 years ago.

At the Misses Connel for dinner tonight.

1960

Some party by the name of Dick
Weinberg called from Los Angeles to see
if I would be willing to appear in
some kind of a panel show about snakes.
Dave Garraway in today or some such. He
was very indefinite or confused. Said I
wouldn't undertake anything of an exhibit-
ionist nature, but might go in for something
educational. He said he would advise me.

the snakes instead of using a party
named Marble.

In the afternoon sent a list of topics
(fallacies) to Cunningham, the producer,
in N.Y. and to Weinberg;

for dinner tonight.

SUNDAY 12 JUNE

1960

Trinity Sunday

~ 164th day - 202 days to come

Today I fooled around some with the statistical problems of snakes of maximum size and their validity in taxonomic problems. I thought of several methods of attack to determine the frequency curve of distribution of snakes approaching maximum length in any subspecies. Looking back over old papers I found I had already studied and worked out some of the parameters of these distributions but had long since forgotten the work I had done on these problems. All of this is related to the taxonomic value of the Angel de la Guard specimens of mittelli.

Went out to the Walker Bollmeyer's at La Jolla for lunch. We were taken with the Pixley's to the La Jolla Beach Club. Returned about 4 PM.

1960

SUNDAY 26 JUNE

Second Sunday after Trinity
178th day - 188 days to come

Miscellaneous letter writing today; I am up to date now.

Today I finished reading, for the nth time, Joseph Vance by William De Morgan. It is the most moving novel that I have ever read, I know that it is long, too long for anyone to read today, much less the many times that I have read it. But it is only by repeated readings that one becomes a bystander, deeply affected by the lives of the people who are depicted with such humor and pathos.

Called on Allan and Jean tonight prior to their leaving for Europe

1960

TUESDAY 28 JUNE

✓ 180th day - 186 days to come

Chuck Shaw and I started for Hollywood at 8³⁰ and arrived at the NBC Studio at 11⁰⁰. Met Fred Rheinstein and his secretary Willi — and discussed the program. He had one conversation with Cooper in New York and changed the inquiries to be asked by Dave Garraway. There was the usual confusion and uncertainties. The secretary then took us to lunch at the Brown Derby. It was a good lunch and restful. We then went to the studio in Burbank and had a sort of preliminary run-through to show the crew what was wanted. The final run through was still quite confused and the snakes, despite having been chilled in a Coca Cola freezer were quite restless & intractable. We were supposed to go on at 2 but something went wrong with the audio to and from New York and I am not sure when we actually got under way. We were on something between 7 and 9 minutes. There were the usual hobbles. What was actually recorded I won't know until 7³⁰ tomorrow morning.

Shaw drove back 2³⁰ Burbank to 5³⁰ at home. I was very tired.

1960

WEDNESDAY 29 JUNE

St. Peter, Apostle

181st day - 185 days to come

Listened to the Garroway show this morning. On the whole our snake part wasn't too bad despite the delay and confusion caused by the loss of the audio line. However we did have about as much time as we had been promised. As usual one's voice as heard over radio, T.V., or on the phonograph sounds completely different from what one hears when he himself speaks. Mine sounds thin and whiny. The worst of the broadcast were delays or pauses when I couldn't think of appropriate words.

At the office this morning. J.A. Cannon called for a chat.

Misc. letters and other business this afternoon.

At noon went to a Realty Board luncheon to hear Dr. Nicholas Niyardi. A very good speaker. He talked on Communism; also the Free Enterprise System.

THURSDAY 25 AUGUST

1960

~ 238th day - 128 days to come

Meeting of the City Council this morning to consider a new ordinance to suppress the sale of pornography. Council Chamber packed and many standing in the halls. Miss Breed had held a seat for me; I was late because of parking difficulties. The audience was strongly in favor of the new ordinance. It was finally referred back to the City Attorney because of obvious defects. To have spoken against the ordinance would have been a mistake I think as the library's position would have been misunderstood. Miss Breed will write the City Attorney (via the City Manager) and seek to have the ordinance so worded as to protect the library from undesirable censorship by some of the radical proponents. I think Miss Breed may have been disappointed that we didn't speak up. But the crowd was too emotional to hope for weighing of facts ^{or arguments}.

Was at the office for a brief time before the Council meeting.

This morning, on the way down to the office, I got some time tables and found that, by taking the West Coast, I could reach Sacramento in time for the Chamber of Commerce meetings tomorrow. So I decided to go and secured the necessary sleeper accommodations after some scurrying around.

Caught the 1 PM Santa Fe to Los Angeles. It was a hot trip as the air conditioning wasn't working.

Had a considerable wait in Los Angeles. Rather warm. Walked over to Olvera St and got some oranges for breakfast.

The travel was heavy with many families and lots of kids in the station.

Caught the West Coast for Sacramento at 7:40 DST. Understand the train will be discontinued next week.

1960

FRIDAY 2 SEPTEMBER

▼246th day - 120 days to come

Arrived at Sacramento 3/4 hr. late and took a taxi to the El Dorado Motel where the meetings were to be held instead of at the Hotel Senator as heretofore. Had gone a block before nothing. I had brought my valise along contrary to intention. So we went back at the taxi driver put the bag in one of the steel lockers and then came out and gave me the key. Unfortunately I didn't note the number.

Arrived at the El Dorado, a very extensive place too late for the meeting of Russell's Committee on California's Future. Kided Russell (President of SP) about this. Was in time for the general sessions which were given over mostly to discussions of the propositions to appear on the ballot next November. At lunch T.S. Peterson, president of Standard Oil of California talked on proposition 15, the State Reapportionment measure. Got a ride back to Sacramento and went to the State library where I went through the personnel card files, Sacramento city directories (1850-1860), and a book on Butte County dated 1881 to get as much family information as possible. Got a few

notes but arrived home at 145, half an hour late after a hot trip. Wrote and took to the Post Office and airmail letter to the Station Master at Sacramento about the value and means for its recovery. Spent the afternoon catching up on mail and newspapers and then went to a steak parlour at Ralph Phillips (Herman's old present), and then saw Ralph's fine Japanese pictures. Side still sore.

notes but not as much material as I had hoped. Hebraman asked for more material on mother.

Then went to the movie The Apartment which was highly entertaining.

When I got to the SP Station about an hour before train time I found I had lost the key to the locker containing my bag. The station master and the baggage man could open lockers but the latter refused because I didn't know the number. Next a postcard to El Dorado telling them to send me the bag if the key was found out there. Had a hard time doing this as my pen ran out of ink and the card was a mess. Caught the train completely disgusted. Side quite sore.

1960

SUNDAY 4 SEPTEMBER

Twelfth Sunday after Trinity
✓248th day - 118 days to come

Miscellaneous catching up today, reading back material, writing letters, paying bills, and trying to get one of these damned ball point pens working. Monthly accounts tabulated.

Worked on the time switch for lights at home this afternoon.

Party at Allan's tonight for dinnies and to see his European pictures.

Paul D. R. Ruthling called for a chat this afternoon. Rather unpropitious time as I was anxious to get on with other work. The conversation was not particularly informative. He is divorced again.

SATURDAY 29 OCTOBER

✓303rd day - 63 days to come

Spent the morning packing for the trip to Los Angeles to take in several grand operas. Started at 12⁰⁰ and arrived at 34⁰⁰. No troubles; the freeway was crowded for only the first 10 miles.

Stopped at the Parkway Motel on Alvarado St. a very satisfactory place. Rate \$10⁰⁰ per day for two.

Went to dinner at Carl's, which no longer has a Drive-In section.

In the evening went to the Shrine Auditorium to hear the San Francisco Opera Company's presentation of Simon Boccanegra, with Tito Gobbi, Floriana Cavalli, Giorgio Tozzi, Giuseppe Lampieri, et al. I had never heard this opera before. It was quite impressive despite the overly involved plot, and well worth hearing. Hasnt the popular elements of the later Verdi operas.

1960

SUNDAY 30 OCTOBER

Twentieth Sunday after Trinity—Feast of Christ the King
~304th day - 62 days to come

Had lunch at Sam's which was very poor.

Then went to a performance of Lohengrin (matinee) with Sándor Konya in the title role, Ingrid Bjoner as Elsa, Robert Anderson Irene Dalis, et al. Also Kurt Boelme as the King. It was a sound presentation, notable for the pageantry. But Lohengrin isn't one of my favorites.

Had dinner at Carl's.

1960

MONDAY 31 OCTOBER

Hallowe'en—Reformation Day
✓ 305th day - 61 days to come

Went shopping down town and succeeded in getting some collars, now a very scarce article. Lunched at Robinsons with Gg.

Found, much to my displeasure, that for the first time opera tickets are not returnable, so, after giving tickets for Traviata to Philip, I am stuck with \$28⁰⁰ worth of tickets for Aida and Die Frau ohne Schatten. These tickets were bought before we knew Gg had a baby-sitting commitment for the Millers.

In the late afternoon we went to a movie "Jungle Cat" at the Avarado. There was also a Russian circus film, and another about a raccoon.

Had dinner at Kuffs and got a fairly complete sleep tonight.

1960

TUESDAY 1 NOVEMBER

All Saints' Day
~ 306th day - 60 days to come

Hang around the motel until noon. Then went down town and had lunch at my old hang-out (during insurance directory days) at the Pacific Mutual coffee shop. Met Al Sutherland. Ran into the aftermath of the Kennedy parade just before they started to clean up the shredded paper mess on the street. Tried 5 stores for more collars; no soap.

Had dinner at Carl's. Then went to a fine performance of that glorious, tear-jerking soap opera La Boheme. It was very well done and much enjoyed. The cast included Floreana Cavalli, Giuseppe Zampieri, Mario Zanasi, Geraint Evans, Lorenzo Alway, Mary Costa, and one old friend (now much thinner) Salvatore Baccaloni.

1960

WEDNESDAY 2 NOVEMBER

All Souls' Day

~307th day - 59 days to come

Hung around and rested up this morning. Had lunch at a hamburger joint nearby on Pico. Went out to Elsie Libby's apartment with GJ and were told the circumstances of her death by the Blacks (her niece and nephew) who are distributing her personal belongings. We were given several small items.

Went to Carl's for dinner and then to Puccini's "The Girl of the Golden West". I had seen the play, but never the opera. It was rather a total loss (not the fault of the cast). It is a poor Western, and while one recognizes Puccini frequently, he is certainly not at his best. He evidently had the same love for this work that one has for a subnormal child. The cast, which did as much as could be expected with the material, comprised Dorothy Kirsten, Tito Gobbi, Sando Konya, Howard Fried, Lorenzo Alvaray and others.

1960

THURSDAY 3 NOVEMBER

✓ 308th day - 58 days to come

Packed up this morning and got started for home at 8⁴⁰. The freeway was not badly crowded, at least after leaving Anaheim. But here it started to mist, and then rain, which slowed us up considerably. We reached home at 11²⁰.

Spent the afternoon unpacking; also went down to the office to collect the mail.

In the evening (with black tie) went to the Cortez for dinner. We took the Millers and sat at the table with the Cottons and the Jane Fletchers.

Then went to a thoroughly enjoyable performance of *Der Rosenkavalier*, with Elisabeth Schwarzkopf, Kurt Borchme, Hertha Töpper, and Sylvia Stahlman. The final trio and duet are certainly as fine as anything in opera.

We also met Elisabeth's parents, who had just arrived from Switzerland. Their English was limited but we had an interesting chat.

At the office for a short time this morning; then down to the Health Building of the Civic Center to attend a Certificate of Convenience and Necessity hearing on South Bay No. 2. Attended 10-11⁴⁵ and 2¹⁵ to 2⁴⁵.

Delivered the talk on Smog before about 100 women (and one man) at the Point Loma Community Presbyterian Church. It didn't go very well. The loud speaker wasn't working properly and I had to strain my voice to reach the back-benchers. Result; coughs and sputters. Also it was too long and too technical. I think if I do it again for this type of audience I will simplify and shorten it. I was very tired after it was over.

proposal to give me his Saline Valley collection. They are having a help dinner tonight in SF but I had to decline.

Talked preservation equipment with Herton. They are buying from a San Francisco manufacturer ~~the~~ polyethylene discs in more sizes and cheaper than in Stanford. They don't have to buy any dies; all they do is allow $\pm 1/32$ " leeway in sizes. I got some samples from Herton, but he will send me more with prices.

 the last for SF

Dec. 2 Continued.

In the library, I went over the
 San Francisco City Directories from 1850 -
 54, checking entries under Gould, Epstein,
 Mandelbaum, or Klaus (there were
 none). There was a record of the purchase
 of a mine by H.W. Gould in Cerro Gordo from
 an estate; also letters from F. Mandelbaum
 to Adolph Nitro, which I left for further
 checking tomorrow.

In the evening Dory took us
 to Henry's Fashion for a fine dinner;
 we then drove around looking at views,
 especially that from the top of Telegraph
 Hill.

FRIDAY 2 DECEMBER

Monroe Doctrine Declared 1823

~337th day - 29 days to come

Arrived at SF OK and got a good room at the Palace

Went to a meeting of the Board of Directors of the California State Chamber of Commerce from 10 to 1. Sat next to J.R. Knowland at lunch and he told me of his project to write an autobiography which is now about 75% completed.

In the afternoon I went out to the California Historical Society at 2090 Jackson. Being unfamiliar with the buses, I walked out from Van Ness, a very foolish thing to do as I felt it severely.

Met Mr. J. de T. Abajian, the librarian, who was very helpful and interested in my project for gathering data on various members of my family. I promised him several items in return including family photographs and my thesis (1908) of the street railway system of San Francisco. Also the earthquake report, which I was surprised to learn I had not sent to this institution.

(Continued on Dec. 1).

1960

SATURDAY 3 DECEMBER

St. Francis Xavier

~ 338th day - 28 days to come

Went with Gg to the bus depot. Then returned to the Historical Society where I worked from 10³⁰ to 1. I read over the Mandelbaum letters (all per H. Bruckman) to Autos but found nothing of family interest. I also ran over a series of photos donated to the Society by a Miss Sanford daughter of Oliver Nason Sanford a former City Engineer of San Diego. Many of these were of considerable historical interest especially some from before 1900. I found a 5th + H. Kw. Co picture and ordered 3 copies. I also went over the S.F. directories from 1860 to 1875 and a few others and noted family addresses and businesses.

Went shopping at several places, including the Emporium; I had never seen denser shopping miles.

Met Reez and Nancy by accident on the street. Had a poor lunch at the Pig 'n' Whistle. Then back to the hotel for a rest.

Gg returned from Redwood City and Palo Alto. We went out and had supper at "Fosters". Tried to find some oranges; no luck.

MONDAY 5 DECEMBER

✓ 340th day - 26 days to come

Went out to the San Francisco Public library at 10¹⁵ and checked the S.F. Chronicle for an obituary notice at the time of Uncle Henry's death. I found the usual funeral notice, but no account of his life.

Ran down a few references in my bibliographical lists. A surprising number that they had in the library were out.

Had lunch at a cafeteria across the street (surprisingly good) and went back to the hotel at 2.

At 4 we went across the bay in the bus. Saw Olga and Also Haines. Got a lot of useful family data from Olga.

At 7 we took a taxi out to the Revere grounds and had dinner. They brought us clear back to the hotel, where we arrived at 10¹⁵.

1960

TUESDAY 6 DECEMBER

✓341st day - 25 days to come

Went out to the California Academy of Sciences at 10³⁰. Met Miss Sexton and Ignatia Maguire. They certainly have a wonderful library now. I was shown a Russian magazine, which specializes in American material, but is for circulation only in Russia. It contained a brief article on my herpetological work quite evidently taken from Life. My name in Russian is about like this Топеръ Кробер.

Went to lunch with Orr, Miss Sexton, and Elizabeth McClintock. It was a good lunch and we had a pleasant time.

Then I went through my entire book list, but found only one item.

At 2PM, I went down to the new herp department and saw Alan Leviton. The collection has now been rearranged with fine new steel shelving. Talked about Benny Banta and his collection. Today he is taking his oral examination down at Stanford for his PhD, but he has a 2-year job with CAS, which probably explains why he revised his original
(Continued on Nov. 30)

1960

WEDNESDAY 7 DECEMBER

342nd day - 24 days to come

Started for Berkeley at 9³⁰; got to UC about 10³⁰. Stebbins was out; he is working on some project of the National Science Foundation looking to the improvement of teaching science in primary schools. This requires visiting many schools.

Went to the University Press but Frouge was in Los Angeles and Mrs Rita Carroll in San Francisco at the U.C. Medical Center.

Had lunch and went to the U.C. library where I had my reference card renewed. Had quite a time as users are now restricted to those within a 15 mile radius. Finally got it by stating that I was on the Alameda faculty. But by then I was too tired to work, so I went back to the hotel, arriving at 2⁴⁵.

Rested all afternoon. We had supper at Blum's. Called Mrs. Carroll and Bob Stebbins.

Went to hear the San Francisco Symphony Orchestra at War Memorial Opera House. Enriquez Tonda conducting and Leonid Rogan, violinist, soloist. A fairly enjoyable program. We were way back in the balcony. Few times in sight despite this was opening night. Back at the hotel at 11.

Pretty poor fare.

Had supper at a waffle joint

FRIDAY 9 DECEMBER

344th day - 22 days to come

Arrived in Los Angeles one hour late because of a broken steam line, but had plenty of time to catch the San Diego train.

The Millers met us which was very convenient and necessary for taking care of baggage. Spent the early part of the afternoon putting stuff away and arranging all kinds of material.

Went to the office, bank and post office between 4 and 6. In the evening started on the catching-up program.

1960

SATURDAY 10 DECEMBER

Miscellaneous catching up today and there is surely plenty to do. Drafted a letter to Bradley at the National Research Council telling him I could not attend the meeting of the Ad Hoc Committee on Snake Bite Therapy in Washington, Dec 14. Made a few comments on the first drafts of the treatments suggested.

Watched a part of the 49er - Green Bay Packers game at Kezar Stadium. Not much of a game because of rain and mud.

Went to a Los Angeles Philharmonic Symphony concert tonight -- Wallenstein conducting and Samson Francois, pianist, soloist. Dinner at El Cortez. We had 3 guests.

Had a young cop named Cox staked out in our darkened house tonight. They are trying to catch a burglar who breaks into houses whose owners are slated by Eileen Jackson to be going to some function. A number of others who attended the dinner and concert also had stake-outs in their houses.

TUESDAY 20 DECEMBER

355th day - 11 days to come

at the office this morning.

Wrote a number of letters today.

Meeting with some KW Co stockholders 2-345.

Went to a concert of the San Diego Symphony tonight, climaxed by Danian Milhaud's "La Tragedie Humaine" with the composer conducting. This I neither understood nor enjoyed.

Went over to the Bank of America this morning to borrow \$8500 until after the first of the year, when I would be able to withdraw what was required from savings without sacrifice of interest. My inquiry had to do with the security that would be needed. Instead I found no security required so I borrowed more than I needed. Will be only for about 15 days, anyway. Interest rate to be the prime rate. Money needed primarily for gifts to kids, totaling \$6000 for each from each of us. Made to help them along, not in contemplation of death.

WEDNESDAY 21 DECEMBER

Pilgrims Landed Plymouth Rock 1620—St. Thomas, Apostle—First Day of Winter
~ 356th day - 10 days to come

At the office this morning
Did some shopping.
My 77th birthday today.

1960

THURSDAY 22 DECEMBER

357th day - 9 days to come

At the office this morning.

Conferred with Henry Wright about presenting my herpetological collection to the Natural History Museum. There seem to be no substantial difficulty in establishing a value of \$20,000 to \$25,000 and breaking it up in such a way that it can be presented over several years. Also talked over family gifts, and informal lists and suggestions to accompany a will. This conference was from 10¹⁰ to 10³⁵.

Had an ice cream and cake reception tonight -- a delayed birthday party -- a lot of adults and kids.

FRIDAY 23 DECEMBER

✓ 358th day - 8 days to come

At the office this morning.
Some shopping accomplished.

Received from Washington, for approval, the final drafts of the instructions for treating snakebite in the field and hospital. These are the results of the final meeting of the ad hoc committee in Washington on Dec. 14 -- the meeting which I did not attend.

Cocktail party at Herb Kuenzle's tonight; also delivered Christmas presents round about.

SATURDAY 24 DECEMBER

359th day - 7 days to come

Mostly Christmas chores today.
Herb Kammel called for a
business chat for 1/2 hour this
afternoon.

Went to Allan's Christmas party
tonight. From out of town Bob, Tosa,
Deedie. Plenty of food, presents, kids,
and noise. A good time for all.

SUNDAY 25 DECEMBER

Spent the morning opening presents and lying around. Called at Philip's to see how the kids were getting along; also at Alice Kyneman's. Then had lunch with the Millers.

and other clean-ups.

TUESDAY 27 DECEMBER

St. John, Evangelist

Got a call from the New Yorker

youngster who had been bitten by a
subliminal.

A few chores this afternoon, but
mostly catching up with a voluminous
mail.

THURSDAY 29 DECEMBER

~364th day - 2 days to come

at the office this morning.
Went to Lawrence Oliver's cocktail-
supper party tonight 6³⁰ - 8³⁰ Very
good food.

FRIDAY 30 DECEMBER

365th day - 1 day to come

At the office this morning.

Had a long discussion with Sherwin about the proposed employee savings plan, and the new pension plan.

Spent a lot of time today reading Brattstrom's thesis, proposed as a paper for the Natural History Museum.

Today presented the Museum with an undivided $1/4$ interest in my herpetological collection, that is, the preserved specimens.

Bapse, A. J., Bob, Tony, and little Ellen to dinner here tonight. We talked family affairs and missing data of the past, now difficult or impossible to secure.

SATURDAY 31 DECEMBER

1960

366th day

Watched three football games today -- a lot of wasted time, but had fun doing it.

Worked on accounts for a while. Check book with some bad errors that were hard to find.

Grace and Tobey came to stay all night. I barely woke up when they celebrated at midnight.

So ends another year, during which I have found it increasingly difficult to apply myself to any project having a definite goal so that I reach that goal. Too much time required for (or at least taken for) an afternoon rest. Too many projects begun and left unfinished as soon as a barrier is encountered. At least I have maintained my correspondence fairly well, and financial and business affairs have not been neglected.

Received from the State Motor Vehicle Dept. today an ownership certificate and tax bill showing that the old Chevrolet is still in my name. The new owner, Gordon Tressy, evidently never completed the transfer. So I called Ralph Borch
